Enabling Laws

Act 2034 of 2005

A.C.A. §19-4-101 - §19-4-2004

History and Organization

Mission Statement - The Management Services Division provides leadership and assistance to all state agencies to ensure the uniformity, accountability, and efficiency in the management of human, financial and material resources necessary for those agencies to perform their missions.

The Department of Finance and Administration (DFA) in its present organization form was created by Act 38 of 1971 during the 68th Arkansas General Assembly. Effective February 4, 1971, the Administration Department and its functions, powers and duties were transferred to the newly created Department of Finance and Administration.

The Department consists of two major Divisions: The Management Services Division and the Revenue Services Division. The Management Services Division is composed of the Offices of Accounting, Budget, Personnel Management, Procurement and Intergovernmental Services. Other offices that play a major role in State Government are the Office of Administrative Services, the Office of Internal Audit, the Office of Information Services, and the Employee Benefits Division. In addition, the Racing Commission and the Alcoholic Beverage Control Administration Division were also transferred to the newly created Department of Finance and Administration. Act 729 of 1981 transferred the Alcoholic Beverage Control Enforcement Division from the Department of Public Safety to the Department of Finance and Administration.

Central Administration activity of the Department of Finance and Administration oversees the departmental goal which is to instill good management practices in Arkansas State Government and to provide the money to run it. As the Chief Fiscal Officer of the State, the DFA Director is charged with the responsibility of making certain that expenditures, use of property, purchases, and use of personnel are carried out in accordance with the laws of the State. Most of the responsibilities in this area are directed and authorized by Act 876 of the 69th General Assembly (General Accounting and Budgetary Procedures Law, § 19-4-101 et seq.).

Central Administration includes the Department of Finance and Administration top-level administration personnel and economic analysis. It is devoted to furthering the department goals with special emphasis placed upon services to agencies and citizens of the State.

The Department has two distinct functions within State Government. One function is to serve as the central collector of state revenues. The other function is to operate control management systems for State Government by providing assistance to all state agencies. This includes the management of their funds, personnel, and property, while exercising certain statutory controls over the agencies in these areas.

The Management Services Division has a primary goal of providing other agencies of State Government with services to assist them in meeting their primary goals and objectives. It continues to administer statutorily required controls in a manner that ensures agencies in State Government are operating legally, deriving maximum use of personnel, money and equipment available to them, and providing maximum service to the taxpayers. The Management Services Division has as its central objective the following program areas:

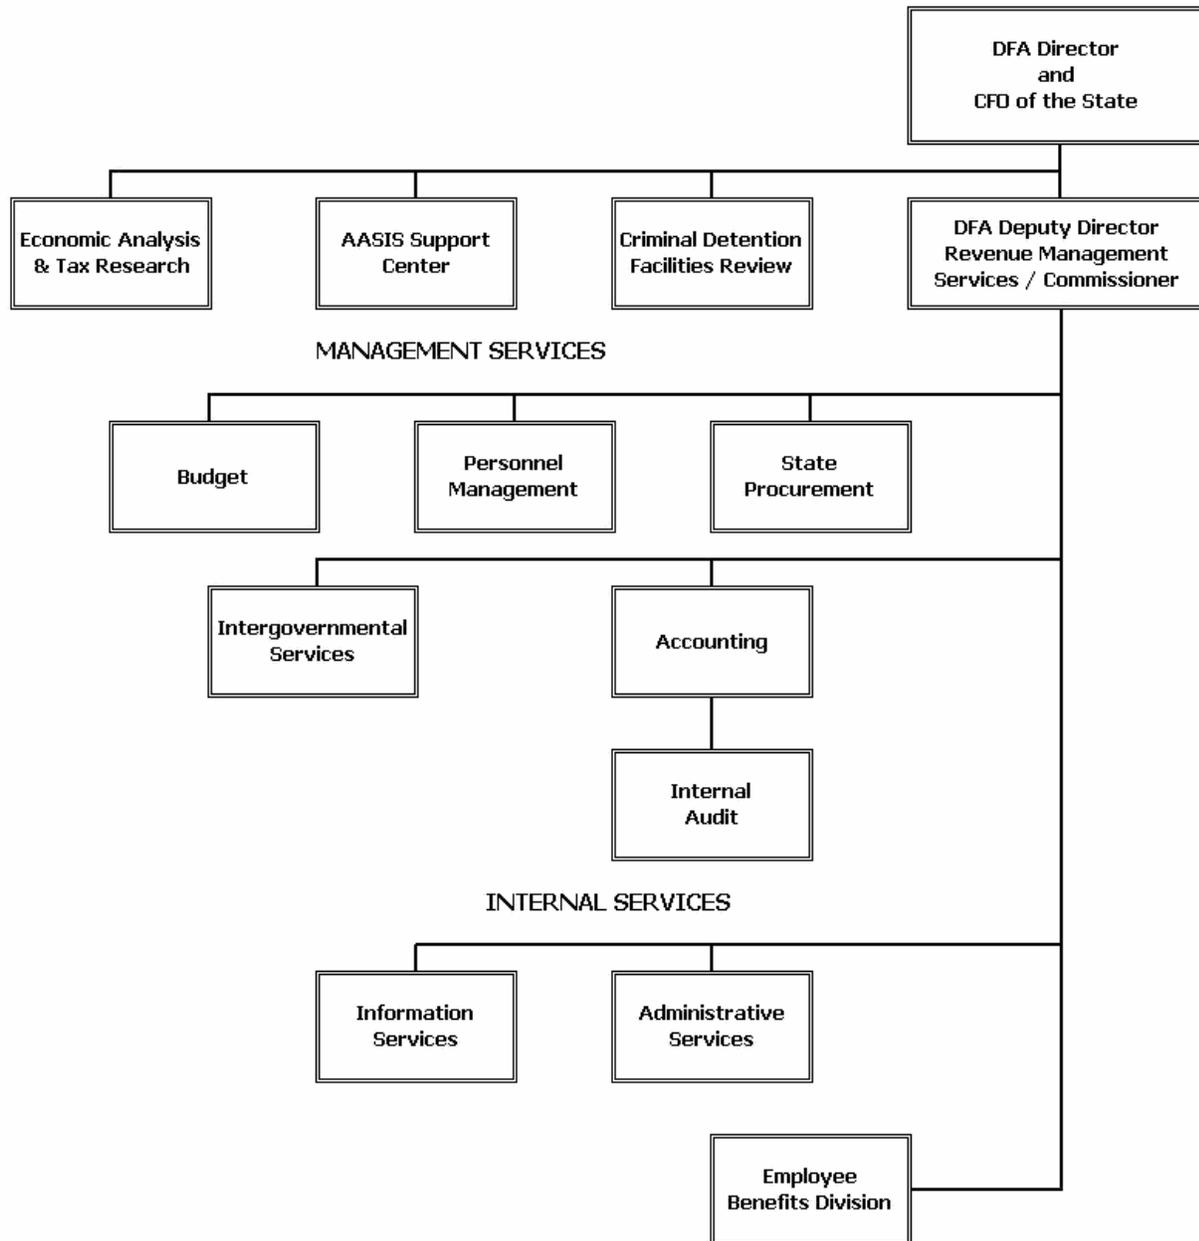

- 1) Accounting - Provide efficient and responsible fiscal management of all state programs or activities. Maintain a financial system providing information on all transactions of all state agencies for accounting and management services, apply sound pre-auditing procedures and maintain the State's accounting system in a timely and accurate manner. Additionally, the Office of Internal Audit (OIA) has merged with the Office of Accounting. The main goal for the OIA is to provide agency management with objective, pro-active advice and value-added recommendations that assists them in the achievement of their goals and objectives and provide for strong accountability of state resources. To achieve this goal set forth for the OIA, a three-fold audit approach is utilized. This approach includes the performance of agency audits, Executive Order 98-04 "Compliance Audits and Special Reviews" that may be requested by agency management.
- 2) Budget - Develop, analyze, recommend, present and execute State budget matters, assist state agencies in budgetary matters and enforce the deficit prohibition law.
- 3) Personnel Management - Develop procedures and methods for the continued efficient operation of the Arkansas Personnel Management Program. Maintain personnel records for all classified agencies and payroll records for all state agencies. Provide broad spectrum training opportunities for state and local government employees and provide technical assistance and guidance to all state agencies.
- 4) Procurement - Implement the State procurement program and establish policies, procedures and controls for that program and administer a quality assurance program. Maintain a State surplus property program through the Marketing and Redistribution section.
- 5) Intergovernmental Services - Administer federal grants directed to local governments, state agencies and non-profit organizations for the improvement of narcotics and general law enforcement, drug treatment within state prisons, services for victims of crime, and prison construction. Provide an opportunity for organizations and individuals to review and comment on federally supported programs prior to their implementation.

The Office of Administrative Services has with it human resources, fiscal accounting, purchasing and asset management, Administration of Justice Fund, and state messenger service. This Office performs numerous management-related functions for the Department of Finance and Administration, the Governor's Office, and smaller boards and commissions.

The Employee Benefits Division makes available to State and Public School Employees group health and life insurance. State employees also have the option of selecting other optional benefits, including deferred compensation. The Division oversees that customer service is available from the

vendors for the participating members.

The Office of Information Services (OIS) is responsible for management of departmental information technology (IT) resources. This encompasses the Management Services and Revenue Services Divisions, and the Office of Child Support Enforcement. Functional areas include administration (including DFA web site maintenance and the Quick Copy Center), applications development and maintenance, and operations and support (computer operations, and local area network and desktop support). OIS also administers the State Vehicle Management Information and Acquisition System.

Agency Commentary

The Management Services Division_of the Department of Finance and Administration has a primary goal of providing other agencies of State Government with services to assist them in meeting their primary goals and objectives. It continues to administer statutorily required controls in a manner that ensures agencies in State Government are operating legally, deriving maximum use of personnel, money and equipment available to them, while providing maximum service to the taxpayer.

The main operating appropriation in Management Services (272) is funded from the State Central Services fund. The Agency is requesting an increase over Base Level in the amount of \$1,139,455 for each fiscal year. This amount includes requests for the following:

Restore 5 currently authorized clerical positions for unanticipated needs that may occur throughout the Management Services Division.

Transfer a total of 19 positions from Office of Child Support Enforcement (OCSE) to Management Services Division and 1 position from Management Services Division to the Revenue Division. The transfer of the 19 positions from OCSE to Management Services Division would help maximize federal funds in that state funds spent by OCSE for these positions would be used as matching funds to generate additional federal funding resulting in an additional \$1.7 million in federal funding for OCSE. This transfer of positions, along with the funding expected from the DFA Cost Allocation Plan would help OCSE replenish most of the \$3.0 million in state match funding lost as a result of the Federal Debt Reduction Act of 1995. The transfer of the DFA Assistant Administrator position from Management Services Division to Revenue Services Division - Legal Counsel is needed to address the continuing issues that require resolution with regard to the State's participation as a member of Streamlined Sales Tax. Current legislation provides for the Streamlined Sales Tax provisions to become effective in Arkansas on July 1, 2007.

Two new DFA Accounting Manager positions, grade 25, for the Office of Accounting. One position to oversee the compilation of the annual Statewide Single Audit report. This task had previously been performed by Legislative Audit. The second position to provide technical research and guidance to agency and CAFR staff on the implementation of accounting pronouncements and regulations made by regulatory bodies such as FASB, GASB, GAO and SEC. Current staff cannot support this work load.

Conference and Travel Expenses to provide continuing professional education for the Certified Public Accountants on staff in the Office of Accounting along with training seminars attended by various financial staff at key agencies within the State.

The Employee Benefits Division (278) is requesting a reallocation of \$20,000 from Professional Fees to Operating Expenses. Due to the changes in the procurement regulation, certain professional services contracts have been reclassified and are now considered Technical Contracts.

The DFA Management Services - Miscellaneous Cash appropriation (907) is used to provide spending authority for various activities such as the Inter-Agency Training Program, Office of State

Procurement seminars, vendor fees and rebates, and Employee Benefits Division. The Agency is requesting an increase over Base Level in the amount of \$1,082,542 for FY08 and \$1,078,542 for FY09. This amount includes requests for the following:

Conference and Seminar Fees to continue a cash fund letter approved in FY07 for the Office of State Procurement for vendor rebates.

Continuation of 3 supplemental positions to regular positions approved in FY06 for the Employee Benefits Division for the Centers of Medicaid and Medicare Services (CMS) Program and supporting Operating Expenses and Conference and Travel Expenses.

Four new positions for the Employee Benefits Division for detailed case management previously done on a minimal basis by the insurance providers and supporting Operating Expenses and Conference and Travel Expenses.

Operating Expenses for the Employee Benefits Division to provide reporting capabilities for the information that is assembled by the quality sub-committee for the Arkansas State and Public Employees Life and Health Insurance Board. This information will be used by the Board in making future quality of care enhancement decisions for the membership.

The Agency is requesting to discontinue the appropriation for the Violent Offender Incarceration Grant Program which will end on September 30, 2006. This grant program has been discontinued by the federal government.

State Contracts – Price Comparisons, Bid Process, and Leases – Issued November 11, 2005

Findings and Conclusions:

- For 34 of 50 items randomly selected for testing, the computed average retail price exceeded the state contract price.
- Beginning July 1, 2004, AASIS fully implemented controls to prevent an individual transaction from being entered and approved by the same person. Testing conducted by Legislative Audit Information System auditors indicated the control was appropriately designed.
- Inadequate segregation of duties related to P-Cards existed at some agencies/universities for which P-Card transactions were reviewed.
- Questionable charges to and inadequate review of Business Travel Cards (BTCs) were noted. Individuals holding BTCs are solely responsible for charges and the State incurs no liability.
- Confusion exists concerning the requirement for certain technical procurements to be approved by the State's Chief Executive Information Officer.
- Arkansas Building Authority (ABA) does not maintain comparative lease rates for different areas of the State and does not retain documentation of any formal rate comparisons conducted by the Agency.

Recommendations:

- Agencies/universities adopt the internal control policies and guidelines established by the Office of State Procurement (OSP) for their respective P-Card programs.
- OSP determine if it is practical and beneficial to continue the BTC portion of the Travel Card Program.
- Clarify the process outlined in Arkansas Procurement Regulations requiring state agencies to obtain the ECIO's approval for technical procurements exceeding \$100,000.
- Arkansas Building Authority develop procedures to document lease negotiations for every lease in which they act as a leasing agent on behalf of a state agency.

Appropriation: 1GA - Purchase / Corporate Travel Card Program

Funding Sources: MPC - Purchase and Travel Card Program Fund

This appropriation is funded by a miscellaneous revolving fund and is used for rebates from vendor banks, distribution to participating agencies and for operating expenses connected with the administration of the Purchase and Corporate Travel Card Program.

Arkansas Agency Travel Card Program

The Department of Finance and Administration (DFA) - Office of State Procurement (OSP), State Agencies and Institutions of Higher Education have developed and implemented the Arkansas Agency Travel Card Program for employees that have valid business related travel expenses. The Office of State Procurement has responsibility for the development of policy and procedures. Agencies and Higher Education Institutions are responsible for the development of procedures consistent with State policies implementing the program.

In October 2002, the State of Arkansas entered into a partnership with UMB Bank, Kansas City, Missouri, to be the official provider of a VISA Commercial Card Program as the State Travel Card.

Cardholders use the card for any authorized travel related expense at any establishment or merchant that accepts the VISA card. The Arkansas Travel Regulations govern most aspects of the State Travel Card Program.

Arkansas Purchasing Card Program

The State of Arkansas and participating organizations have implemented the Arkansas Purchasing Card Program (P-Card) with US Bank VISA Purchasing Card to simplify, streamline, and facilitate the purchase and payment process.

The P-Card is a fast, flexible purchasing tool offering an enhancement to the existing purchasing processes and provides an extremely efficient and effective method for purchasing and paying for supplies with a total maximum per cycle limit that will be determined on an individual basis. The default maximum charges per individual cardholder are \$2,000 per cycle. The P-Card is to be used only for official business purchases for the State of Arkansas. Any attempt to use the P-Card for a purchase in excess of the set card limit will result in the purchase being rejected by the bank and the vendor.

Base Level for this appropriation is \$1,600,000 each year of the biennium and represents the Agency Request.

The Executive Recommendation provides for the Agency Request.

Justification

C01	This request includes \$133,279 each fiscal year for salaries and matching to restore 5 currently authorized clerical positions, 4 Secretary II's, grade 13 and 1 Document Examiner II, grade 12, for unanticipated needs that may occur throughout the Management Services Division and \$20,000 each fiscal year for Conference and Seminar Fees to provide continuing professional education for the Certified Public Accountants on staff in the Office of Accounting along with training seminars attended by various financial staff at key agencies within the State.
C02	This request of \$152,736 each fiscal year includes salaries and matching for 2 new DFA Accounting Manager positions, grade 25, for the Office of Accounting. One position would oversee the compilation of the annual Statewide Single Audit report. This task had previously been performed by Legislative Audit. The second position would provide technical research and guidance to agency and CAFR staff on the implementation of accounting pronouncements and regulations made by regulatory bodies such as FASB, GASB, GAO and SEC. Current staff can not support this work load.
C07	This request of \$833,440 each fiscal year is to transfer 19 positions from Child Support to Management Services and 1 position from Management Services to the Revenue Division. The transfer of the 19 positions from Child Support to DFA would help maximize federal funds in that state funds spent by Child Support for these positions would be used as matching funds to generate additional federal funding resulting in an additional 1.7 million in federal funding for OCSE. This transfer of positions, along with the funding expected from the DFA Cost Allocation Plan would help Child Support replenish most of the 3.0 million in state match funding lost as a result of the Federal Debt Reduction Act of 1995. The transfer of the Attorney Specialist position from Management Services to Revenue Legal Counsel is needed to address the continuing issues that require resolution with regard to the State's participation as a member of Streamlined Sales Tax. Current legislation provides for the Streamlined Sales Tax provisions to become effective in Arkansas on July 1, 2007.
